

IZZA FARIS

Junior Full Stack Developer

izzafaris.it@gmail.com | +94 775569802 | Kandy, Sri Lanka | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Motivated Junior Software Developer with hands-on experience in HTML, CSS, JavaScript, Bootstrap, jQuery, and GitHub. Seeking an entry-level front-end development role where I can apply my practical project experience, strong problem-solving skills, and eagerness to learn to contribute effectively within a development team.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, Bootstrap, Responsive Design
Backend	PHP, MySQL
Security	Cybersecurity Fundamentals
Tools	Git, GitHub, VS Code, Linux (Basic), C Programming

PROJECTS

Personal Portfolio Website HTML | CSS | JavaScript | AI [GitHub](#) | [Live Demo](#)

- Needed a central place to display my work and establish an online presence as a developer.
- Designed and built a personal portfolio website to showcase projects to potential employers.
- Developed the site using HTML, CSS, and JavaScript with a responsive layout and smooth navigation.
- Created a live, accessible portfolio that effectively presents my front-end skills and project work.

AI Tools Showcase Website HTML | CSS | Bootstrap | JavaScript [GitHub](#) | [Live Demo](#)

- Users struggle to find and compare AI tools scattered across the web with no single organized resource.
- Built a centralized showcase website to help users discover and explore popular AI tools easily.
- Designed a clean, categorized layout using HTML, CSS, and Bootstrap — each tool card includes a description, category tag, and direct link, with full mobile responsiveness.
- Delivered a user-friendly platform that makes AI tool discovery fast and accessible on any device.

Stay-Ease Hotel Booking HTML | CSS | Bootstrap | JavaScript [GitHub](#) | [Live Demo](#)

- Online hotel booking interfaces are often cluttered and difficult to navigate, especially on mobile.
- Designed a clean, user-friendly hotel booking website that simplifies browsing and booking rooms online.
- Built a responsive front-end using HTML, CSS, and Bootstrap — featuring hotel listings, room detail views, and a structured booking form with smooth navigation.
- Produced a polished, mobile-friendly booking experience that demonstrates real-world UI/UX design skills.

Dice Game HTML | CSS | JavaScript [GitHub](#) | [Live Demo](#)

- Wanted to practice core JavaScript skills through a fun, interactive browser-based project.
- Built a two-player dice game where each player rolls and the game determines the winner instantly.
- Used vanilla JavaScript for random number generation, dynamic DOM updates, and real-time dice image rendering — all styled with a clean, responsive CSS layout.
- Delivered a working interactive game that clearly demonstrates DOM manipulation and JavaScript fundamentals.

Simon Game HTML | CSS | JavaScript | jQuery [GitHub](#) | [Live Demo](#)

- Sought a challenging project to strengthen JavaScript logic, event handling, and animation skills.
- Recreated the classic Simon memory game as a fully functional browser application.
- Implemented the game logic using JavaScript and jQuery — including growing color sequences, animated button highlights, sound feedback, level tracking, and a game-over screen with restart functionality.
- Produced a complete, polished game that showcases advanced JavaScript skills including event-driven programming, jQuery animations, and state management.
